

People celebrate Saint Patrick's Day on March 17.

Leprechauns are tricky, silly little Irish fairies.

St. Patrick lived in Ireland hundreds of years ago.

According to the Guinness Book of World Records, the highest number of leaves found on a clover is 14!

St. Patrick told stories about shamrocks.

St. Patrick used the three leaves of a shamrock to explain the Christian holy trinity: the Father, the Son, and the Holy Spirit.

People wear green on St. Patrick's Day to remind them of the green hills of Ireland.

The Irish flag colors mean:

green = people of the south

orange = the people of the north

white = the peace that brings them together as a nation

In Ireland on St.
Patrick's Day, people
traditionally wear a small
bunch of shamrocks on
their jackets or caps.

Children in

Ireland wear

orange, white

and green

badges on St.

Patrick's Day.

There are about 10,000 regular three-leaf clovers for every lucky four-leaf clover.

IRELAND IS ALSO KNOWN AS "THE EMERALD ISLE."

The name "lephrechaun" could be

from the Irish Gaelic word "leipreachan," which means "a kind of aqueous sprite" or it could be from "leath bhrogan," which means "shoemaker.

Boston, Massachusetts has had a St. Patrick's Day parade for over 275 years!

Legend says that each leaf of the clover means:

- 1. hope
- 2. faith
- 3. love
- 4. luck.

In Chicago on St. Patrick's Day, the Chicago River is dyed green with a special dye that only lasts a few

hours!
